

Formulating better medicines for children

Meeting the needs of children

17th conference of the European Paediatric Formulation Initiative

A conference organised by the International Association for Pharmaceutical Technology (APV)
in partnership with the European Paediatric Formulation Initiative

16 - 18 September 2025 · Course no. 7037 · Talence, Bordeaux, France

save the date

Preconference workshops – Plenaries – Soap box sessions –
Case studies – Poster session – Exhibition

EuPFI welcomes to the annual conference and is excited to see you again at another informative and interactive conference on formulating better medicines for children.

PCCA awards – Young scientist award – Best Posters awards

Formulating better medicines for children

Meeting the needs of children

Dear Colleagues,

EuPFI welcomes you to the 17th annual conference on formulating better medicines for children.

Join us for the 17th Annual Conference of the European Paediatric Formulation Initiative (EuPFI), #EUPFI2025 in Bordeaux France, September 16th – 18th, 2025, where the forefront of paediatric drug development converges. This unique event brings together researchers, scientists, and students to share groundbreaking ideas and innovations at the crossroads of drug development and paediatric considerations.

A dedicated poster session will provide an opportunity for researchers to showcase their work, with select abstracts chosen for oral presentations. We encourage all participants to explore the EuPFI website for submission guidelines and further details.

Continuing on the tradition, this year again we are pleased to present two prestigious awards that recognize outstanding contributions from students and early-career researchers. The PCCA Awards will honour three exceptional poster presentations and one outstanding oral presentation. Sponsored by PCCA, these awards aim to encourage early-career researchers to share their findings and contribute to the advancement of paediatric formulation science. Additionally, the EuPFI Young Scientist Award will support the development of emerging scientists in the field. This award will provide free registration to attend and present research at the EuPFI 2026 Conference, offering a valuable opportunity for young researchers to engage with the scientific community. The selection will be based on scientific merit and financial need.

We look forward to welcoming you to France for this insightful and inspiring event. Don't miss the opportunity to be part of the ongoing advancements in paediatric drug development.

European Paediatric Formulation Initiative (EuPFI) (<http://www.eupfi.co.uk>) is an academic-industry consortium founded in 2007, focused on the science supporting paediatric drug development. The primary goal of EuPFI is to promote and facilitate the preparation of better and safer medicines for children. Our organisation is globally recognized as the unique network in Europe that brings together key expertise in paediatric drug development from the large and small pharma companies, specialist CMO/SMEs, academic partners, consultants and clinicians to address common problems in this space.

Mainz, April 2025

Programme

Tuesday, 16 September 2025, 14:30 to 17:30 h

PRECONFERENCE WORKSHOP

Advanced workshop

Wednesday, 17 September 2025, 09:00-17:30 h

Networking/ social evening

Thursday, 18 September 2025, 08:30 - 15:30 h

Sneak peek of topics/speakers

Nanomedicines for children's cancer

Professor Andrew Owen, The Centre of Excellence in Long-acting Therapeutics (CELT), University of Liverpool, UK

Paediatric Enteral Feeding tube administration of medication in a cancer hospital

Dr. Mark Klang, Memorial Sloan Kettering Cancer Center, New York, New York, USA

Regulatory case studies

Dr. Nicole Devit, Merck, USA

Micro array patch technology

Frank Theobald, LTS LOHMANN Therapie-Systeme AG

WHO GAP-F session including introduction to Paediatric Technology Hub, Paediatric drug optimization (PADO) cancer medicines

Minitablet user perspective/panel discussion – over the globe

Navigating Excipients Risk with AI: Selection of Excipients for Paediatrics

Programme is subject to change

Mark the important dates in your diary, and we eagerly anticipate hosting you at #EUPFI2025, where the pursuit of a healthier future for our children takes center stage.

Important Dates

- Abstract submission opens - 10 January 2025
- Abstract submission deadline - 20 June 2025

Please note there will be no extension on the deadline, and abstracts submitted after June 20th will not be considered unless it is a late-breaking abstract with appropriate justification for late submission.

- Notification about abstract acceptance - 10 July 2025
- Poster Submission Deadline - 30 July 2025
- Early Bird Registration Deadline - 20 July 2025

Topics for oral and poster presentations

1. Age appropriateness of formulations
2. Administration devices
3. Biopharmaceutics
4. Excipients
5. Developing paediatric formulations for low resource settings
6. Taste Assessment and Taste Masking
